

Title of Meeting:	Area Prescribing Committee Meeting	
Time:	1:00pm	
Date:	Wednesday, 12 November 2014	
Venue:	Level A RFT Pharmacy Seminar Room	
Reference:	AG/JAA	
Chairman:	Avanthi Gunasekera	

Present: Avanthi Gunasekera Commissioning Executive NHSR CCG (Chair)

Surinder Ahuja TRFT
Stephen Davies RDaSH
lan Cawthorne TRFT
Stuart Lakin NHSR CCG

Ravi Nalliagounder GP Simon McKeown GP

Minutes by: Julie Abbotts Administration Assistant

	Agenda Item and Action Points			
14/75				
	John Radford (Public Health), Christine Harrison			
14/76	Declarations of Interest			
	Interest declared by Avanthi Gunasekera, Simon MacKeown and Ravi Nalliagounder in			
	anything that affects GP practices.			
14/77	Minutes from the Meeting held on Wednesday, 17 September 2014			
	Minutes approved as a true and accurate record of the meeting.			
14/78	Matters Arising			
	12/048 & 13/20 & 13/35 & 13/66 & 13/83 & 14/21 & 14/38 & 14/52 & 14/66 & 14/78			
	Memantine			
	RDaSH stated that this will not be as much of an issue now Memantine is going to become a generic.			
	SCP agreements – RDaSH are meeting with PCT/CCG commissioners to discuss SCP and the direction to take. RDaSH have provided the financial modelling relating to the number of patients for memantine up to November 2013.			
	Committee queried if there is a need to revisit the clinical SCP for memantine or is it still applicable. It is agreed in principle that prescribing in accordance with NICE guidance will at some point in the future be transferred to primary care. Prescribing that is outside NICE			
	guidance will be retained by RDASH			
	SD has sent a baseline of Doncaster's shared Care to start the conversations. SD is liaising with the 3 consultants and recommends GPs liaise with SL.			
	RDaSH still to comment on the proposals. JPa informed group of Dr Wright's presentation at March PLT.			
	JPa gave an update from NHS Rotherham CCG MMC some pharmacies are experiencing difficulty with 3 monthly prescriptions from RDaSH.			
	AH - RDaSH are aware of the 84 day prescriptions, these are being prescribed from a pragmatic			
	point of view due to the frequency that patients are seen.			
	Action - AH to discuss this with colleagues with regards to NOMADs, proposal would be to			

provide 3 x 1 monthly prescriptions for this purpose to prevent degrading of drug.

AH – informed committee of a recent RDaSH wide meeting on the use of memantine that RDaSH are awaiting revised pricing. NHS Rotherham CCG and RDaSH have an in principle verbal agreement that if prescribing is within NICE guidance then the CCG will be willing take over the prescribing in line with the SCP, any prescribing outside of NICE guidance will remain with RDaSH.

SL - Awaiting further information from RDaSH

All agreed that at present we are awaiting memantine to come off patent for cost reasons. It is agreed in principal that Primary Care will take over prescribing within NICE guidance criteria. SL informed committee that work is ongoing and he is due to discuss this with Jeremy Seymour. AG reported that SL is speaking to Jeremy Seymour. SCP has been reviewed at NHSR CCG MMC. Discussions ongoing regarding the finance.

SD reported a lot of work has been undertaken and a recent revised draft has been received for approval. There are 4 generic products available and the tariff is the same. Memantine may reduce and finance conversations are taking place.

SL/SD reported that discussions have been taken place outside the meeting and the SCP has been agreed and ratified at CCG MMC and Jerry Seymour is happy with the SCP and for the transfer of memantine prescribing back to primary care. SL will notify GPs via the GP Newsletter with the caveat from SD to review if other evidence / guidance comes to light. Committee agreed. This will be formally ratified at a later APC.

SD/SL no further feedback and transfer of patients has started. An email was issued to all GPs issued a while ago and no further comments have been received. SD informed committee that this item has been discussed at their Clinical Reference Group and memantine has been removed from prior approval. If GPs wish to co-prescribe or prescribe outside of NICE it would then require prior approval.

Task complete – remove from minutes.

SD asked that if there are any issues with Memantine then to make him aware so that he can resolve the issues.

AG questioned Denepozole & Mementine prescribing. SD stated that there should be no dual prescribing being transferred to primary care. If a patient is to be on two drugs then their care should continue with RDASH.

Action - AG to do a search on Donepezil & Mementine prescribing at Thurcroft practice as a starting point. AG to email her findings to SD to look into this.

Action – To be brought back to the next meeting on 12th November.

SD JAA

No update.

13/53 & 13/66 & 13/83 & 14/21 & 14/38 & 14/52 & 14/66 & 14/78 DMARDS Share Care Protocols and LES June 2013 - JPa from MMC

Data presented following ES work and update of contacts.

Mycophenolate now has a generic brand which will create savings if used. APC advice is that GPs be aware of what brand the patient is on.

Regarding Mycophenolate and Tacrolimus NHSR CCG will not be switching patients to alternative brands. The CCG has no preference what brand secondary care uses and is happy if patients are switched to alternative brands by secondary care clinicians, the CCG requires that on any communication the brand of Mycophenolate and Tacrolimus that the patient is taking is clearly identified.

Eloise Summerfield is still liaising with dermatology. Gastroenterology is complete.

JP to discuss further with Dr Muncaster regarding Roaccutane.

Gastroenterology SCP is complete. Judith Wilde is going through the traffic light system for SCPs. GPs have no appetite to take over the prescribing of Roaccutane

SCP with Dermatology is being discussed. ES is following this up.

SL reported that Gastroenterology SCPs are in place and Dermatology SCP is outstanding.

Action - SA to take this forward with Dermatology and ES.

Work still ongoing

Action – JMu to add to items pending. Post meeting note: action complete

Eloise Summerfield had submitted Rheumatology Shared Care Protocols for approval. There had

AG

been no major changes to the protocols and they would be reviewed in 3 years. The protocols were approved by the Committee.

Item to be place on pending.

Dermatology are not going to undertake any SCP for DMARDS and are saying the patient numbers are too small and that they are happy to continue monitoring.

Covered as part of Agenda.

13/50 & 13/66 & 14/21 & 14/38 & 14/52 & 14/66 & 14/78 Buprenorphine: -

- Buprenorphine detail aid
- Buprenorphine patch QIPP

TRFT confirmed they do use Buprenorphine patches. IC/SA/SL to circulate information to both organisations as a joint communication.

Action - SL to liaise with IC & SA

AC – not moved any further forward as yet SL-agreed

Buprenorphine prescribing for Rotherham is high. It was discussed that fentanyl tolerability is often an issue so buprenorphine is considered second line. It is also deemed as safer for some patients. Elderly Osteoarthritis patients are prescribed.

 $Action-Govinder\ Bhogal\ and\ Surinder\ Ahuja\ to\ analyse\ prescribing\ and\ look\ into\ this\ further.$

Action - SA to liaise with Govinder Bhogal - SA action outstanding

SA is in receipt of the patient's names and is reviewing who initiated the treatment, work ongoing.

SA informed committee of an audit due to be undertaken. Following CD Lin feedback Hapoctosin release rate is 3 days and it is about raising awareness to clinicians that it does not have the same release time as Trans Tec which is 4 days despite being shown as a similar generic medication.

Action - APC to recommend a brand for use

Action - SL to liaise with Govinder Bhogal about the outstanding action item re brand of use and bring back to meeting on 17 September.

No updates – SL not present.

Item would be brought back to the meeting in January 2015.

13/85 & 14/21 & 14/38 & 14/52 & 14/66 & 14/78 Anticoagulation Therapy Record – (SA)

SA informed committee that Dr Barker requested this item for discussion. The dose is to be updated and the booklet will not be updated in time. Therefore, a printed copy will be provided in the interim.

Action – SA to provide information to SL. SL to incorporate into the December Newsletter. CRMC – Discussions with Maxine Dennis, John Miles, Nicky Doherty, another laboratory person and anticoagulant nurse regarding patient's warfarin being monitored by hospital and then patient's moving into the community. The aim is to move patient's monitoring into practice however there is an issue which may be around TRFT using DAWN system and the community using INR Star.

Outcome of meeting agreed that CCG & TRFT for those patients' who are stable are to be treated in the community and for patients who are not stable to be treated by TRFT.

SA committee that anticoagulation booklets will not be updated by TRFT during the system change. Tracey Taylor (anticoagulation nurse) has provided information for the GP newsletter. This will be a tear off slip with the dose. AG is meeting with Dr Taylor and there will be an anticoagulation meeting on the 22^{nd} April 2014 AG will be in attendance.

AG attended meeting with Dr Taylor and next meeting is scheduled for July. AG will discuss appropriate anticoagulation and numbers involved. Another piece of work is around transferring stable patients from TRFT to the community and the anticoagulation group will keep a note of inappropriate discharges. AG/SL and Rachel Garrison have undertaken a survey monkey to assess the INR provision within the community.

We have details of 2 inappropriate discharges from wards where the patients have been told to attend GP for warfarin therapy and no other communication from the TRFT has been issued to the GP.

Action – SL to provide the names to SA who will investigate. This detail will also be shared with Anticoagulation team. Post meeting note: Action complete

Tinzaparin and NOAC

AG has spoken to GP colleagues today who agree that patients on Tinzaparin cannot be transferred to primary care until the patient is stable on warfarin. i.e. One INR within therapeutic range.

SA confirmed that TRFT do supply the required quantity of Tinzaparin whilst they are being stabilised on warfarin and TRFT will continue to monitor.

AG confirmed that GPs are happy to take over the monitoring once 1 INR in therapeutic range. Action complete – remove from minutes – post meeting note – further information – leave on minutes.

Meeting with Dr Taylor had been cancelled, this had been rearranged for 15 August. There are six example cases which will be discussed at the meeting. Not all of these are from one ward. Patients on ward are told to go to GP but are not given any details re INR levels, dosage required etc. Anticoagulation Nurses attended a recent PLT event and showed GP's the grey form which is supposed to be given to patients on discharge and patients are asked to take the form to their GP. None of the GP's present had seen the form before. This will be discussed at the meeting on 15 August and AG/SL will report back to the next meeting.

Meeting went ahead regarding unsafe discharges. The next meeting is due to take place on 7^{th} November 2014. Dr Taylor is working on NOAC guidance. SL will feedback on this with a view to having a single guideline for both primary and secondary care.

Meeting will now take place on 28 November. Surinder confirmed that she was able to attend. Surinder said that regular meetings were taking place at the hospital.

Anticoagulation training dates have now been set up for 4 Dec and 11 Dec for Lead GPs and Practice Nurses. District Nurse training dates have yet to be identified. Due to the shortage of District Nurses there is uncertainty as to whether they have the capacity to undertake the training and deliver the service of 'household INRs'. The problems with the testing machines have now been resolved.

SL said he was working on a first draft of the NOAC guidance and this would need to be taken forward with GPs to seek their opinions.

13/86 & 14/21 & 14/38 & 14/52 & 14/66 & 14/78 Prucalopride & Linaclotide (SL)

Require agreement on the traffic light as Prucalopride is specialist prescribing by the consultants, as we have patients in the community, SL recommends clear guidance be given to GP on how long to continue within the community.

Linaclotide is a new medication. Do we need a SCP for onward management? Recommend that both drugs are Amber.

Action - SA to take to consultants/surgeons. SL to ask ES to liaise with SA if SCP required. SA still investigating with surgeons and nothing further to report today.

Committee did not feel there was a requirement for an SCP for Prucalopride; however, further investigation needs to be undertaken and the quidance be obtained.

Committee agreed for Prucalopride to become Amber.

Committee agreed for Linaclotide as open use in accordance with new laxative guidelines TRFT would like to adopt the guidelines. Gastro surgeons, Colorectal nurses and Pharmacy are meeting as a working group.

SL reported that 60% of patients are on osmotic medication and further work is required. SA to conduct an audit of all the patients as a snap shot and discuss as a team.

SA said that the audit was still to be completed - item to be placed on pending until November meeting.

No further updates until November.	
Item to be added to pending.	
14/24 & 14/38 & 14/52 & 14/66 & 14/78 Tramadol & Pregabalin – restrict initiation	
SL reported that the agreement is in place for Tramadol to be initiated for <u>short term use only.</u> Pregabalin / Gabapentin data is showing quite a few patients with a substance misuse code and the numbers are approaching the national average. SL to share this piece of work once the data is complete.	
AG informed the committee that communication to GPs relating to discharge of prisoners into primary care is not happening. SD was of the understanding that there was communication and that the prisons should be discharging back into RDaSH services as well as GP care. SD suggested that a summary care record may be the key, however they are aware of a few	
information sharing issues i.e. consent to share which would need to be addressed. Action – SL & SD to work on this in collaboration to resolve and reduce the numbers and increase	
communication. Data will be shared prior to the next APC and will be discussed further at the next APC SL to share the piece of work that has recently been undertaken. Committee still need to be mindful of the rise in use	
Item yet to be actioned – keep on minutes.	
AG has now got a date, 19 th November, to visit Doncaster prison. Mark Pickering from the prison agreed to show SL and AG around and look at the current issues.	JAA
Action - Bring back to January meeting with updates on how the visit went.	
Pregabalin is now white on the traffic lights document. If a patient has a history of substance misuse then Pregabalin is not to be initiated in primary care.	
AG/SL would be visiting Doncaster Prison on 19 th November and would report back to the January meeting.	SL/AG
14/25 & 14/38 & 14/52 & 14/66 & 14/78 Buccal Midazolam	
DM reported problems with patients coming in on different types of Buccolam and Midazolam as the doses and strengths are slightly different between the types of medication. TRFT have already switched the Children patients who have attended TRFT.	
SL is happy to switch children and adult patients. DM to provide information to SL to ensure the switches are correct.	
Action – DM to speak to David and feedback to SL. SA received a call from Lloyds advising that Dr Price has prescribed for someone older than 18	
and none of the Buccalam or Epistatus products are licensed for Adults. SA to investigate if this is a one off or a frequent occurrence by the clinician.	
Action – SA to follow up with Dr Price and feedback Post meeting note: DM forwarded Buccalam information and this will be disseminated with the minutes	
SA had contacted Dr Price and is awaiting a response. SL agreed to liaise with Lisa Murray regarding tidying up the procedure.	
LM has emailed Dianne but no response as yet. <u>Action</u> - LM to chase.	LM
Item was discussed and it was agreed that LM would continue to lead this ongoing piece of work.	LM
14/52 & 14/66 & 14/78 Methylphenidate	
SD to send the Methylphenidate SCP to JMu.	
Action - JMu to add to agenda for ratification at next APC. This item would be brought to the September meeting.	

its current format. Action – St. to finalise the SCP RN said there was confusion about who to contact when there are issues with patients on Lithium. It was agreed that a phone number would be published in Bitesize. 13/76 & 14/14 & 14/52 & 14/66 & 14/78 Blueteq Web based software to aid specialist prescribing. A template will be filled in per patient online if a specialist drug is initiated. This will be auditable and useful for forecasting. JP – Useful tool to identify what proportion of prescribing is in line with NICE guidance. IC confirmed that an internal post has been advertised for a technician to support Blueteq and the interview will be done within the next two to three weeks. IC invited St. to be involved in the interview process. St. confirmed that a 4 hour training session has been scheduled for 28th November 2013. Blueteq to advise where it will be held. IC staff have received training and further meetings are to take place to understand and use the system. St. to obtain sign off by Sue Cassin and then complete the finances and payment to Blueteq. Rheumatology will be the first wave. St/ES awaiting CSU Information Governance sign off. Work is due to start around anti-TNFs and a template is to be devised. Nothing to report. Nothing to report. Discussion took place about Bluetec SL said that they now had rheumatology drugs on the system and 200 patients had been uploaded. They can now start matching invoices to patients. When information is available it will be brought back to the group. Item would be placed on pending until information becomes available. 14/47 814/52 8 14/66 8 14/78 AOB 1 – Vitamin D and ADCAL D3 Vitamin D - 400 units daily, if patient is taking calcium there is a risk of kidney stones. Guidance advises healthy start but these are not prescribed but are given by health visitors or sure start. ADCAL D3 one a day has renal implications in pregnant women. Incident where patient is dehydrated and vomitting. (SI suggests clinician seek advice if hyperemesis is an issue an		SD confirmed that he is happy with the document. This document is now approved in

14/84	For information	
	Committee reviewed the enclosures:-	
	Barnsley APC Ratified Minutes – August 2014	
	Barnsley APC Ratified Minutes – September 2014	
	Barnsley APC Memo – August 2014	
	Barnsley APC Memo – August Enclosure	
	Doncaster APC Minutes – August 2014	
	Sheffield APG Minutes – no update	
	RDaSH MMC Minutes - September 2014	
	Minutes of Drugs and Therapeutics Group – no update	
14/85	Any Other Business	
	SD told the group about a new procedure around provision of healthcare to police	
	cells which has recently been recommissioned and will be run by Leeds now. Will	
	affect substance misuse patients – if they are on a daily supervised script the script will be picked up from pharmacy and then administered to the patient. This will	
	probably be a safer service. Prescribing Leads in each pharmacy need to be made	
	aware of this.	
	aware or tris.	SA
	Shared Care Procedure for Tinzaparin for renal impairments – draft version would	
	be circulated by Surinder.	
14/86	Agenda Deadline: by close of play on Tuesday 6 January 2015	
	Date and Time of next Meeting: Wednesday 21 January 2015
