White cells contain actual patient numbers
These indicators will turn red/green in future quarters showing the reduction in repeat prescription

No Pts = No patients
And therefore a full reduction and achievement

Practices can receive:
10p / patient if they achieve for each criteria up to a maximum of 130p / patient

Audits required for:
Reds in Qtr4 can be appealed by submitting an audit to the MMT at the CCG presenting reasons for **clinical** exceptions.

This must include information for **ALL*** patients not reaching the target with **specific** reviews and actions taken between Apr 2021 & Mar 2022

Audits should be submitted on the appraisal template with all sections completed

*Or 10% patients for the PPI indicator

Data last run
