£ = Rounded up to the nearest million

## Our staff

As at 31/03/2020

GOVERNING BODY

VERY SENIOR MANAGERS

OPERATIONAL EXECUTIVE (DIRECTOR EQUIVALENT)

ALL EMPLOYEES

# Equality and diversity

## Age

We acknowledge that older people are more likely to use services and have worked in partnership with **Rotherham Older People's Forum**, who have carried out surveys and consultations. We also **work with young people to design and produce information** they told us they needed.

## Disability

Our Social Prescribing Service **links patients with voluntary organisations**. It was developed from community discussions and is valued by patients.

## Gender

We have met with targeted groups for example, women from South Asian backgrounds to both deliver messages and to **hear their specific concerns and issues**.

## Race

Where possible, we audit patient feedback (for example, Friends and Family Test data) by race to **identify any difference in experience**.

## Sexual orientation

We have strong links with local lesbian, gay, bi-sexual and transgender (LGBT) groups and aim to ensure **people are involved in any consultation work** we complete, as well as listening to this overlooked community.

## Pregnancy and maternity

We are working regionally to develop a **Maternity Voices Partnership**. Locally we are working with a community organisation who are leading on developing a **perinatal mental health support group** and a major consultation.

## Gender reassignment

Our Medicines Management Team are **working proactively with a transgender group** to look at medication in primary care and access to services.

## Engaging with our community

NHS Organisations have a 'duty to report' to the public about all involvement and consultation activities which have helped to shape the services bought on behalf of local people.

View the impacts from engagement and consultation activity:
